Fix with:

Snap-on joiner for VFU(L)
KPVF

LOAD DIAGRAM
This diagram illustrates the permissible uniformly distributed loads applied to multiple supports. They comply with IEC 61537 with connection to 1/5 of the span and the end span = 0,8x the span. When the joint is situated in the centre of the span, a reduction of 0,7x the admissible load is to be taken into account.

F = max. admissible load (daN/m)
L = support distance (m)
Max. deflection (m) = L/100

Legend finish
- ZP = Zinc plated
- DF = Defender
